### Chapter 15

This History of Sea Scouting in the York-Adams Area Council Squadron could never have been accomplished with the tremendous help, guidance, and constructive commentary of a large number of Council Scouters, employees, and Friends of Scouting. I have listed many of them here. To them, as well as to all others who have helped in great ways and small, on behalf of Sea Scouts everywhere, I want to say BRAVO ZULU – Well Done and Thank You!
